

Pet Relocation Planner

Use one copy for each animal or group your notes here. Track records, travel logistics, and the steps that must be verified before travel.

Pet name

Species / breed

Microchip / ID

Target travel date

1. Veterinary & Records

- ☐ Record all required vaccines, dates given, and future boosters still needed.
- ☐ Gather vaccination certificates, test results, prescriptions, and veterinarian contact information.
- ☐ Verify the destination country's exact animal-entry requirements and any deadlines attached to them.

2. Travel Preparation

- ☐ Choose the airline or transport method and confirm pet policies in writing when possible.
- ☐ Measure the pet and the carrier, then confirm crate size, labeling, and approved style.
- ☐ Practice carrier time, calm loading, feeding schedule, and comfort items before travel day.

3. Arrival & Safety

- ☐ Write down the arrival address, first veterinarian option, and backup emergency contact.
- ☐ Plan the first 48 hours after arrival: water, litter or potty setup, food, rest area, and decompression.
- ☐ List anything still missing so no nonrefundable booking is made too early.

Veterinary, airline & arrival notes

ONE CALM PLACE FOR THE DETAILS

JADE NOTE

Traveling with animals is serious, but it is easier when everything is written down in one calm place. Let this sheet become your control center.
